Adjourn

Activities

Workshops – You Have Choices to Make

Pick from three workshops during the five educational sessions and consider jumping tracks based on your job responsibilities. Build your own experience to fit the many hats you wear at your society. Whether its **Governance, Growth** or **Communications & Community Service**, each track will feature fraternal experts and seasoned insurance professionals who are committed to helping the fraternal systems stay strong.

Morning Kick Offs

9:00 – 9:30 am, Wednesday and Thursday, in the Member Hub

An Alliance update will energize the crowd with success stories and then registrants will be cut loose to network or to attend the next session.

Member-to-Member Connections

Wednesday at 3:15 – 4:30 pm in the Member Hub

Focused and structured networking opportunities allow fraternal leaders to discuss critical industry issues.

Roundtables

Thursday at 10:45 – 11:45 am in the Member Hub

All attendees should report to the Member Hub for the last activity of the Symposium. Check out this list and then come ready to share your thoughts and get some great feedback.

Young Professional Network (YPN) Zone

Throughout the meeting in the Member Hub

Look for signs in in the Member Hub to chat with members of our informal group of rising stars. These professionals from all departments are eager to expand their network to build skills and camaraderie among other newcomers to the fraternal system.

Contact info@fraternalalliance.org with questions.
